

Venue hire at the Royal Society

THE
ROYAL
SOCIETY

A beautiful, historic venue in the heart of London

The Royal Society is situated in an ideal location overlooking the Mall and St James's Park and close to many transport links.

With 12 rooms available for booking, our venue is ideal for hosting conferences, board meetings, training events, seminars, lectures, receptions and dinners. We can accommodate events for between 10 to 500 guests.

Our aim is to ensure that your event is delivered to the highest standards. Our conferencing team will work with you to plan and manage your event so that you can be confident that your event will run smoothly and that your guests will have an enjoyable experience.

Each of our elegant meeting rooms has natural daylight, air conditioning and WiFi. All event space in the Royal Society is equipped with modern AV equipment and there is an on-site team to provide technical support if you need it.

Most of our event rooms are equipped with innovative hybrid event technology. Our hybrid packages are designed to help you reach a wider audience and facilitate collaboration between delegates from across the world, allowing them to interact and engage with the event.

We are also able to host a number of webcasting solutions, as well as several filming and recording options.

Our conferencing service is recognised for our outstanding fine dining catering options, provided by CH&CO.

We look forward to welcoming you to the Royal Society.

Wolfson Rooms, room 1

About us

The Royal Society is the national academy of science in the UK and our fundamental purpose, reflected in our founding Charters of the 1660s, is to recognise, promote, and support excellence in science, encouraging its development and use for the benefit of humanity.

We are a self-governing Fellowship of many of the world's most eminent scientists drawn from all areas of science, mathematics, engineering and medicine. The Fellowship is made up of approximately 1600 Fellows and Foreign Members and every year up to 52 new Fellows and up to ten new Foreign Members are elected.

The Royal Society has played a part in some of the most significant and life-changing discoveries in scientific history and our scientists continue to make outstanding contributions to science.

Portrait of Sir Isaac Newton, by Charles Jervas, 1717.
Isaac Newton was elected a Fellow of the Royal Society in 1672 and served as its President from 1703 – 1727.

We published Isaac Newton's *Principia Mathematica*, and Benjamin Franklin's kite experiment demonstrating the electrical nature of lightning. We backed James Cook's journey to Tahiti, reaching Australia and New Zealand, to track the Transit of Venus. We published the first report in English of inoculation against disease, approved Charles Babbage's Difference Engine, documented the eruption of Krakatoa and published Chadwick's detection of the neutron that would lead to the unleashing of the atom.

The leading scientist of the past four centuries can be found among the 8,000 Fellows elected to the Society. From Newton and Darwin to Einstein, Hodgkin and Hawking, pioneers in their fields are elected by their peers. Current Fellows and Foreign Members include Jocelyn Bell Burnell, Richard Dawkins, Tim Berners-Lee and over 70 Nobel Prize winners.

We can offer tours of our unparalleled archives.

Kohn Centre

The perfect medium-sized conference facility, or an atmospheric dining room.

Richly decorated with wood panelled marquetry, the Kohn Centre's walls are hung with portraits of past presidents of the Royal Society.

The room is fully air-conditioned, soundproofed, and allows for flexible audio visual requirements, including innovative hybrid event technology, making it an ideal conference facility.

With truly impressive views over St James's Park and The Mall, the room works equally well as an atmospheric dining room.

Reception	133

“A huge thanks for your superb organisation of the methane roundtable. The location and its awe-inspiring ancestry was admired by all. The food was utterly delicious, the rooms were set up very well, and all of the staff were so attentive and helpful throughout the evening and the day. We really couldn't have chosen a better venue. You were so supportive in the run-up to the event, and we can't thank you enough.”

Feedback by conferencing client.

Additional services

The highest quality food

Our food and service is provided by our dedicated in house catering company: CH&CO. They design, plan and cater for all our events with attention to detail, ingenuity and imagination.

CH&CO creates seasonal menus using sustainably and ethically-sourced ingredients, and buys from small, local, independent suppliers where possible.

Our catering team can make wine recommendations to complement your meal.

Audio-visual services

The Royal Society offers state-of-the-art audio-visual facilities.

As well as general projection and sound equipment, we are also able to provide a number of webcasting solutions, as well as several filming and recording options.

Our audio-visual team are based in-house and will provide guidance and advice as soon as you need it. A member of the team will meet you at the start of your event to ensure you feel confident with the equipment that you are using. This avoids the expense of bringing in external suppliers, and allows you to work with a team familiar with their surroundings and equipment.

Most of our event rooms are equipped with innovative hybrid event technology. Our hybrid packages are designed to help you reach a wider audience and facilitate collaboration between delegates from across the world, allowing them to interact and engage with the event.

Audio-visual equipment available in each room.
